2. Cooperation with TRUEFOOD
3. IUFoST conference in Cape Town

Topic 1

Successful transfer of PathogenCombat achievements to SMEs

Workpackage 13 'Application in the food industry' deals with the transfer of methods and results developed in PathogenCombat to food producing SME Partners. This workpackage is headed by Prof. Bruno Biavati (University of Bologna, Italy) in close collaboration with Prof. Jordi Rovira (University of Burgos, Spain).

Examples of successful applications in SMEs are given in the following presentations:

- Application in the food chain (Prof. Jordi Rovira) [>>](#)
- New probiotic and protective cultures: Microorganisms for food safety and human health (Prof. Bruno Biavati) [>>](#)

Topic 2

Cooperation with TRUEFOOD

The **Mediator Training in Brussels on 2nd March** was a great success. The workshop focused on the transfer of novel research results from PathogenCombat to the Techno Scientific Mediators (TSM) from TRUEFOOD.

The presentations held in Brussels, including pictures, can be found [here](#).

We would like to give an outlook to the **Final TRUEFOOD Conference in Brussels on Tuesday, April 13th**. The conference will present the main research results achieved during the project. Participants will have a unique opportunity to network, listen and debate with key players from the food production.

More information and registration can be found [here](#). Notice the registration deadline on April 7th.

Topic 3

IUFoST congress in Cape Town, South Africa

In the frame of the 15th World Congress of Food Science and Technology on 22. - 26. August 2010 in Cape Town, South Africa, PathogenCombat is proudly hosting a Session on 'Food Research Funded by the European Union'.

The event will take place on **24. August 2010** and will feature the major achievements of several important European research projects in the field of food safety and quality.

More details and registration information can be found [here](#).
