

PathogenCombat Newsflash

The PathogenCombat Newsflash is a source of information on trends, results, and events on the PathogenCombat activities within the field of Food Safety. Periodical issues inform you about new trends and developments and provide insight into the latest research results and their applications.

The Newsflash makes sure that you do not miss the events of PathogenCombat! You are updated regularly on our activities, including workshops and contributions to conferences on Food Safety in Europe and worldwide.

The Newsflash is issued at least once per month and delivers an exciting insight into PathogenCombat activities.

Enjoy!

New brochure on cleanability of open food contact surfaces available

The hygienic properties and design of open surfaces in food production equipment plays an important role in the PathogenCombat research activities. The central results are now available in a dedicated brochure.

The brochure is now available [here](#).
